## A SXE HARDCORE ZINE

## NUMBER 1 (late 97)

P·I·Y Ⓐ S FUCK !!

THANK YOU FOR NOT SMOKING WHILE READING THIS FANZINE.....

INTRODUCTION...

Hello readers !..welcome to the first issue of XforumX the latest and pathetic SXE/HC zine in the universe.Anyway,this issue is kind of an experimental one so if anyone out there don't like this zine it's perfectly understood...too bad It's my zine.As usual,this zine contains the usual stuffs you'd find in a zine( article,interview, cartoon..poems..etc.)but there will be no reviews pages. Why ? Coz i'm too honest to say bad things about others people hardwork that goes the same with saying good thing about other people work coz i fear they might blow out their nose coz of overpride.So i'll just include some adresses of zine i got & i reccommend it to you. Attention !! altough this is a SXE zine,there will be some non-SXE stuffs coz i'm in lack of stuffs on SXE.I hope someone out there will lend me their stuffs for the next issue. No rip off guarantee.

About the interviews,supposedly in this first issue there will be interviews with XsahaX of EMBRACE ZINE, XfidaX of 90's choice zine,XmaiX of SPLATTERED BRAINS zine,XruhidafiX of SUBTERRANEAN zine,XibaX of SELF-DISCIPLINE zine and XboyX of DISASTER FUNHOUSE. Unfortunately,only X saha X replied it so i hope you guys enjoy the interview.I'm still wondering if these guys didn't recieve my letters or they just refuse to support me.Maybe for the second issue we'll have an interviews with these guys.( COMMUNICATE ! ) I hope our SXE'rs start to communicate with me or our newborn SXE scene will be dead before you know it.

Finally,i'm really sorry if the lay out in this zine is pretty shitty,that's goes the same to my bad english and stupid cartoons.( forget the mispelling,errors and the bad grammars will ya ? )Well..,that's all for now, keep on communicating,send your stuffs(i'm not hoping for free stuffs)and stay straight...

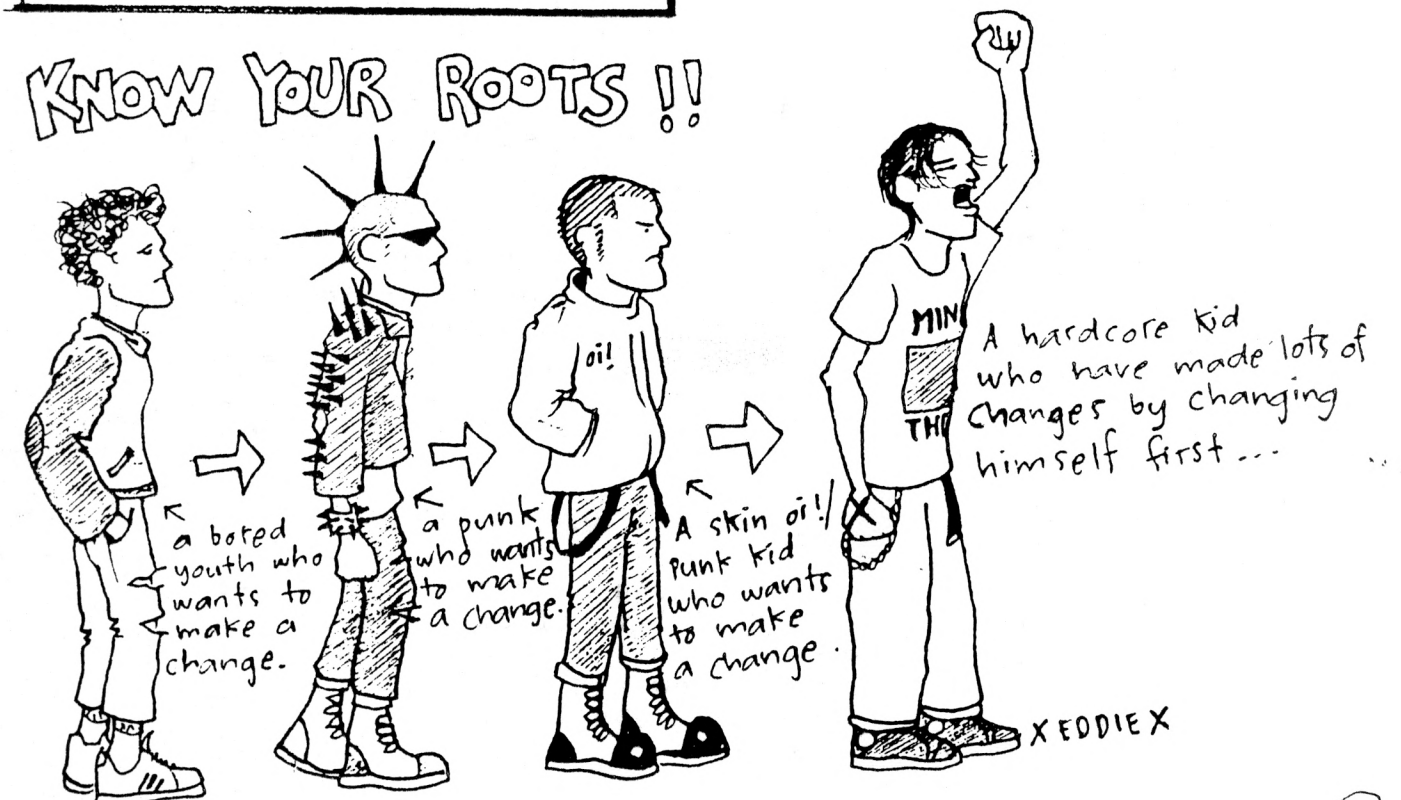
## SONG OF THE DECADE...

BREAK DOWN THE WALLS...

By YOUTH OF TODAY.

I used to think that labels
were just symbols of pride..
But over time i see they only
serve to divide...
It's so easy to judge people
by the way they seems to be,
We must overcome this problem,
To live life peacefully..
BREAK..DOWN..THE WALLS
We'll break down the walls..
Look beyond the fashion ..
or the crowd that their in..
Look beyond the riches or
the color of their skin..
Look beyond appearance and
the truth you will find..
Look for what inside..before
you make up your mind...



## XXX FORUM XXX

Before you started reading this whole fanzine why don't you guys read this special interview with the editor.

XXX AS USUAL...INTRODUCE YOURSELF.

@@@ Hi ! my name is X eddie X,i'm an [redacted] years old student studied art in M.I.T Shah Alam,been a straightedgers for my whole life,aware of the HC scene since 3 years ago,i'm 100% non-violent kid, i hate racism & instead of making this fanzine i also play guitar + some vocal in a HC band called POSEUR T.V.T (used to be a SXE unit)

XXX WHEN DID YOU GET THE IDEA TO START THIS ZINE ? ARE YOU DOING THIS ALONE ? WHAT DO YOU HOPE TO GET FROM MAKING THIS FANZINE ?

@@@ I got the idea to start this zine in mid 97...after watching a talk show in T.V and i was thinking like if i have that lots of money + a broadcasting station i'll organise a SXE talk show unfortunately i don't have that kind of money so i'll just make it in form of a fanzine.For this issue i get help from my friends for the comics + layout.From making this fanzine i hope to get thousands of SXE friends worldwide,spread ing the SXE reality in our community,opening those narrow minded mind and starting a huge SXE scene in Malaysia..

XXX WHAT'S YOUR FUTURE PLAN FOR THE HC SCENE ?

@@@ Starting a distro,look ing for M'sian SXE musician for a SXE band,releasing stuff from my band demo/reh or a split tape.

XXX IN YOUR FANZINE,SEEMS THAT YOU"VE CUT & PASTE ARTICLE FROM OTHERS FANZINE.....WHY ??

@@@ That's right,i've done some cutting & pasting article from other fanzine..why..?..as i've said before i want to spread theSXE reality in our scene so for the first step i'll try to gather some article about the SXE understanding & paste in my zine so everybody know what SXEis all about.simple isn't it.This is because not everybody had the chances to read the article in its original fanzine.I also included some article taken from the internet.PLEASE accept my apologies if you guys outhere don't like my way or just send me a big FUCK YOU ! letter that only show how narrow minded person you are.

XXX HOW LONG DO YOU THINK THIS FANZINE CAN LAST ??

@@@ I dunno..If all ignorants outhere starts to realise think/accept the truth & if lots of SXE kids in M'sia starting to communicating with me i don't see any reason to stop.I know all M'sian HC kids wants to make changes but we can't do it if we don't change ourselves first...right ? ( right ! )

XXX WHAT DO YOU THINK OF M'SIAN HC SCENE ??

@@@ Some are true but some of it comes from trendies, posers, ignorants and music fans...but definitely it's growing bigger but less stronger..?

XXX LAST WORDS ?

@@@ I hope everybody starts communicating esp. the SXE'rs lets make a change, thanks for supporting me by buying this fanzine , i appriciate your support very much. Thanks to all who wrote to me before..u know who u are and not forgetting to all my friends. One more thing i'm in badly needed your contribution for the next issue. That's all for now, so start communicating, any comments/feedbacks? send all your letters to :

# STRAIGHTEDGE !! xxx

Straight-edge refers to a philosophy that's most basic tenets promote a drug free lifestyle. It developed as an offshoot of the punk rock/hardcore scenes of the early 1980's when the term itself is believed to have been coined by Ian Mackaye, in the self titled song, while he was the singer of the seminal hardcore band, Minor Threat. Mackaye eschewed the nihilistic tendencies of punk rock, promoting instead the simple (almost simplistic) philosophy of "don't drink/ don't smoke/ don't fuck."

In the 12 years since the demise of Minor Threat, these simple beliefs have transformed the minds of scores of teens worldwide. Increasingly disenchanted with societal ills, young men and women adopt the straight-edge doctrine as a blueprint to better first themselves, and then the world in which they live. While the original definition of straight-edge only included the rejection of mind altering substances and promiscuous sex, modern interpretations include a vegetarian (or vegan) diet and an increasing involvement and awareness of environmental and political issues.

As noted, straight-edge grew out of the punk rock/hardcore scene and so music plays an important role. The Teen Idles, an early 80's Washington, DC hardcore band, and something of a precursor to Minor Threat, can arguably be called the first straight-edge band. Since that time there have been hundreds if not thousands of bands who've so labeled themselves. Early bands included Minor Threat, SSD and Uniform Choice. In the mid to late 80's, straight-edge hardcore reached a zenith, especially in the greater Metropolitan area of New York City. This atmosphere led to the creation of Gorilla Biscuits, Bold, Wide Awake and arguably the most prolific band of the era, Youth of Today. While the bands of this period did much to popularize straight-edge, they also contributed to its closeminded and antagonistic aspects. The attitude between straight-edge and the rest of the world often took on adversarial tones during this time, largely becoming "The positive youth crew versus people who drink, smoke and/or do drugs." Many people dislike straight-edge and its adherents because of such intolerant views.

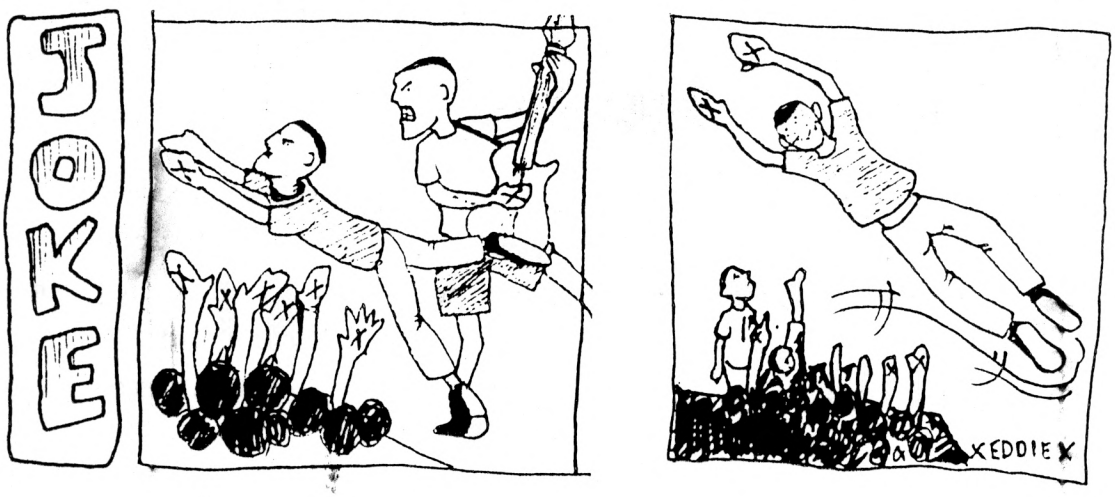
Straight-edge today, while nothing like the "halcyon" days "back in '88," still offers a viable and positive lifestyle. Bands such as Strife, Mouthpiece, Earth Crisis and Snapcase, continue to proliferate and bear the standard. While its detractors often claim that straight-edge(rs) are no more than suburbanite, cliquish, fashion victims, few can argue that the philosophy is still valid. The drug-free lifestyle has left its positive impact on more than one wayward youth. Perhaps the ideals and ideas are more pertinent today than ever as the focus begins to reach beyond affecting merely oneself to altering and improving one's society and environment.

THIS INTERESTING SHORT ARTICLE CAN BE FOUND IN ZEROX ZINE AN OUTSTANDING HC ZINE COMING FROM DaLION CITY. ANYWAY .. TO THOSE WHO HAVEN'T GOT THE CHANCE TO READ THIS IN ZEROX WELL..HERE'S YOUR CHANCES...

ATTENTION !!!!!!!!!!!
to all those who looked down on hardcore.....

This is what i gotta say.If you don"t know a single thing about HARDCORE,then just keep your mouth shut.Hardcore is not a fashion.It is a belief.Not all SXE kids are vegan.Some sxe"rs do eat meat.It is up to them to decide what"s good for them selves what is good for them. I know somebody who said that i am not qualified to be a sxedgers just because i eat meat and that my appearance is too decent to become HC. Let me tell you my friend , that HC is not about dressing up.No matter how you look ,as long as you believe in hardcore you are good enough for the scene.Another person said to me "fuck the HC scene ! ",.Why don't you just shut up.If you don"t believe in the scene,then go and stick to whatever fucking ethics or scene you believe in.What we are doing does not make you suffer.We did not disturb you in any way so just leave us alone.This incident did not only happened to me but also to my friends who are also SXE.But they just keep quiet.But there"s a limit to tolerance.I'm speaking up coz i'm very annoyed at what happened to me recently.Once again,to those who don"t believe in the scene,mind your own FUCKIN"BUSINESS.

#Listen to what i say because you have so much to fucking learn about statement,a belief.. my true identity..... -Chain Of Strength...



WHY THE non-STRAIGHTEDGE IS IGNORANTS....,??????

I. THEY PAY FOR THEIR DEATH ...
- Paying RM3 for a box of cigarrettes & RM IO for a small packet of cannbis does sound stupid isn't it. I can buy 3 different + informative fanzine with that kind of money.

2. THEY RUINED THEIR BODIES..
- Have you seen a chain-smokers x-ray results or a heavy drug-addict bodies..?What do u think..? You want that kind of body ? Besides..they've succeed in malfunctioning their lungs & brains.

3. WASTING THEIR TIME.
- Smoking/shooting drugs into your body will get u stoned,high for hours..All you can do is talking nonsense shit and hallucinates.( you can't even hold a glass of water )

4. THEY SUPPORT THE SYSTEM.
- Every single cents you pay to buy cigarrettes/drugs goes to the government and the capitalist bastards profit looking lifetakers firm and by recycling your money they'll produced more drugs to be sold worldwide while the government just sit and collecting the tax thanks to you ! Don't you know our beloved government increased the cigarrettes tax every years..Where do you think the money goes..? To their accounts of course.!

5. VOLUNTEERING FOR A.I.D.S
- Having sex with someone you've met for hours/weeks does sound stupid isn't it.?Abstaining from free sex can avoid A.I.D.S .Beware with who you're fucking !

This article don't mean that i opposed your action neither i support it but i really think you should know what you have done to yourselves and your surroundings.I'm not hoping to make enemy/foe out of this but if you have your own reason by doing this feel free to write back to me..Chiow !

## CAN WE MAINTAIN 100% STRAIGHTEDGE...??

Hi! welcome to the next pages.I hope you don't get bored reading this article.Anyway I dedicated this article to all straightedgers outhere.Actually,sometime in mid 97 a friend of mine asked me a question that is really make me confused..She asked me about the medicine that we take when we're sick.To tell you the truth i never think about this automatically i don't realise about this.I'm sure every SXE'rs outhere know that all modern medicine that we take is basically based on drugs..in fact a very dangerous & illegal one.This kind of drugs can killed if we misused it.Ha!this is a very tricky question or what ?Anyway this is my opinion,as we all know the motive of being a SXE is to stay healthy & fit physically and mentally by abstaining poisonous substances like drugs, alcohol,tobacco...etc...but (there will always a but..) can we avoid ourselves from taking drugs 100%..hell no..! why ? because we just had to depend on drugs(medicine) to cure our sickness..Is there any way we can 'forced' ourselves from taking this drugs..maybe..like letting our bodies sick,suffer&die or move on the traditional way..i think i can accept the 'old' style..but what if we have to go on a surgery..? for sure those'bastards' at the hospital will give us powerful drugs to unconcious us.Well there's nothing to do except accepting it,right? If we refuse to take medicine to cure ourselves then there goes our healthy lifestyle...This question will remain left in my head & at the same time left me dazed and confused until someone outhere send me their opinion so what are you waiting for ??Let me know what you think awright ?!! till then....bye..

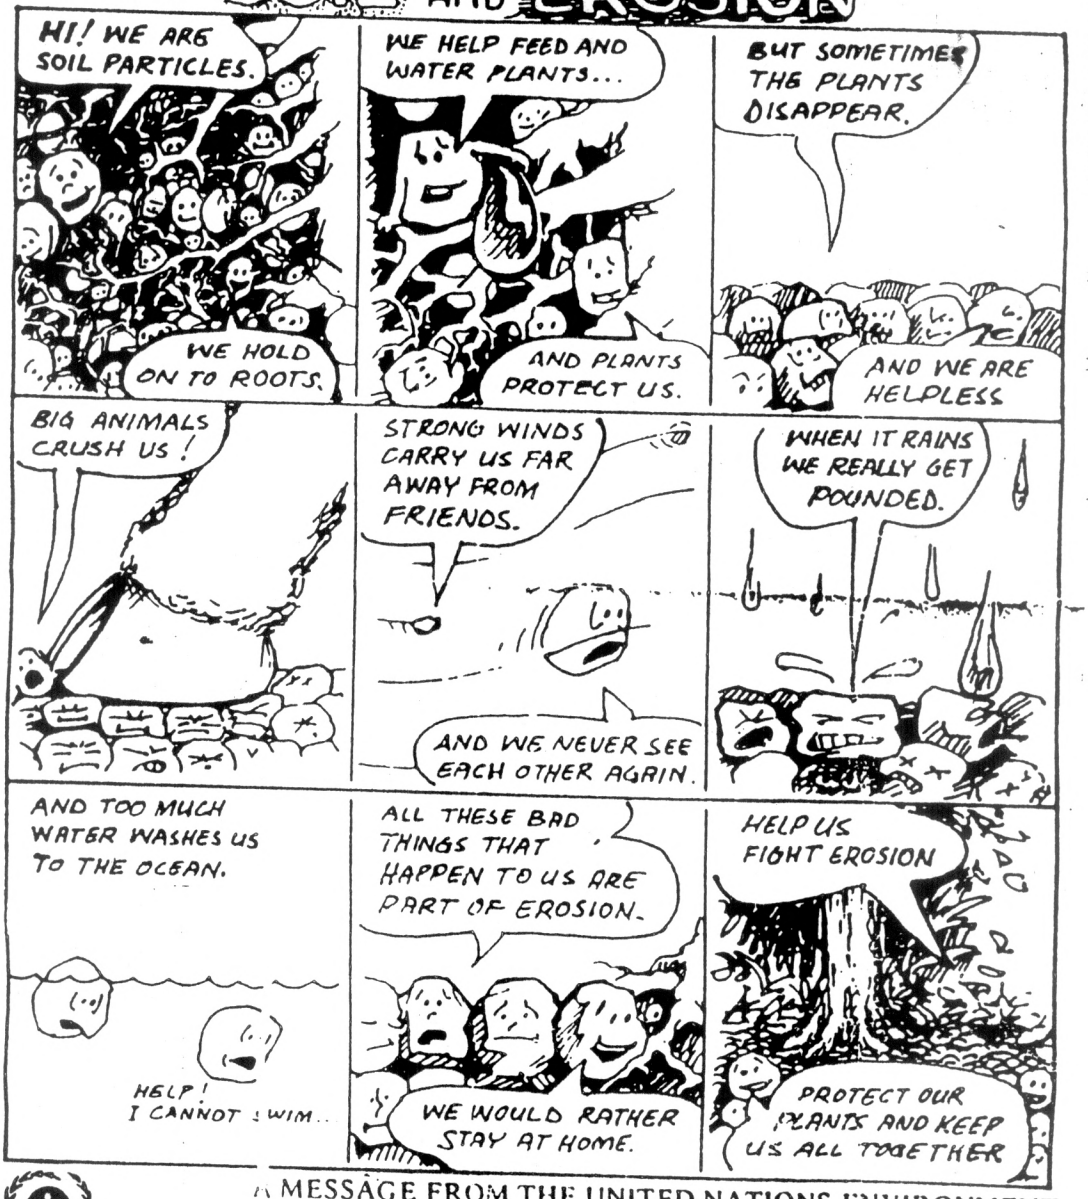
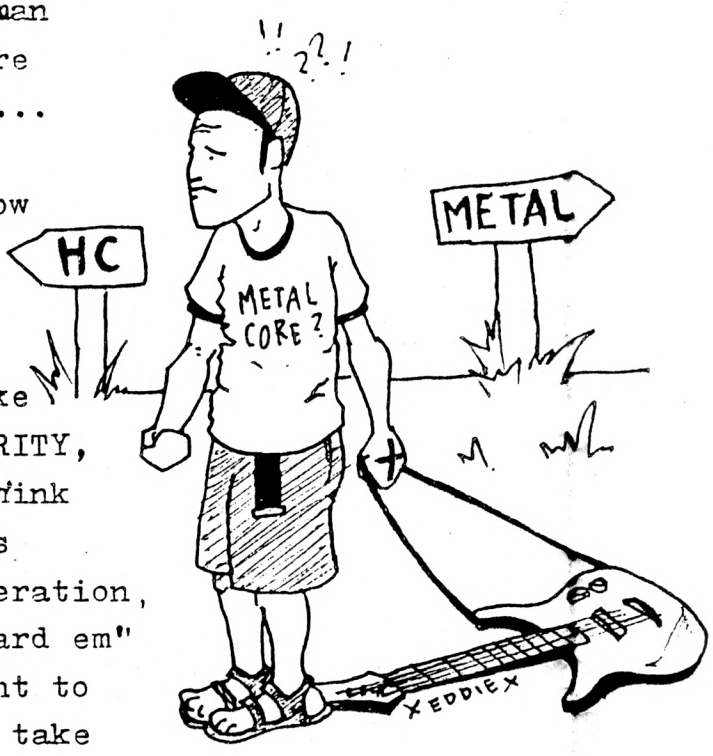
## SOIL AND EROSION



A MESSAGE FROM THE UNITED NATIONS ENVIRONMENT PROGRAMME (UNEP)

ONCE DIVIDED IS ENOUGH...DON"T LET IT HAPPENED AGAIN !!!???.

Nowadays i can see a lot of HC kids are fucked up with the scene itself..why ?? Because the existence of some metal band that play very proggressive metal music and called it HARDCORE..that"s why !! I've also seen some zine editors wrote about this in their zines too ... They called this band crap..fuck it..damn it..& not to forget some of 'em are trying to boycott this kind of bands too.But to me,i have my own opinion..let me ask you,what does HC means to you...To me HC is more than music it"s a lifestyle too..and a HARDCORE band is a band that promotes this lifestyle.Only a stupid ,idiot shitlickers takes HC as a music.So if you guys want to judge HARDCORE bands,judge em' by their lyrics not music. If they were shouting about worshipping satan or how good it feels to kill other human lives that's not HC anymore that is black metal music... Why the hell am i writing this ?? If you want to know keep on reading..



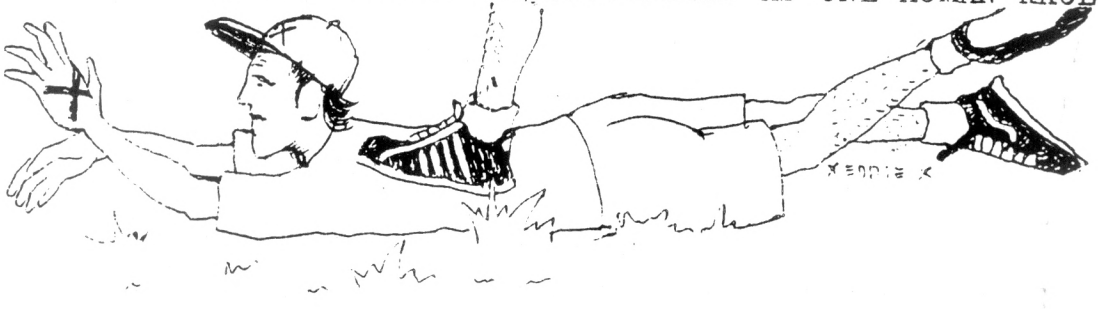
Altough i'm an old school freak i've also listened to some metal/HC bands like EARTH CRISIS,STRIFE,INTEGRITY, CHRONIC MASS..etc and i think they have very good lyrics concerning our rights,liberation, life..etc.So, have you heard em" what do you think ? We want to make changes but we can"t take a very small changes like this. Can't u guys take this with your opened mind /hearts ?? accepted this music like the first day you accepted HC can you ? By the way..labelling people like this only causing segregation,no unity,misunderstanding,lack of respect..etc that will [redacted] divided the scene for it's hundred times..This is not a very good progress towards the HC future.So remember

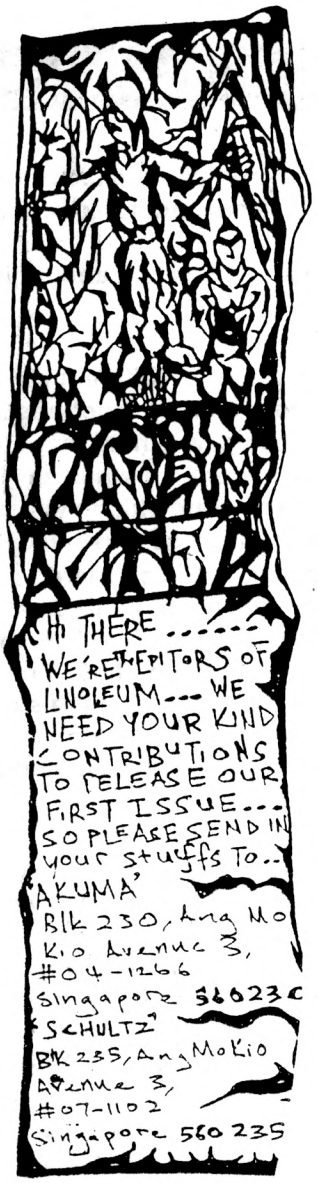
this..STOP DISSING THE NEW SCHOOL,ACCEPTED THEIR MUSIC, RESPECT THEIR CHOICES,COMPROMISE,TOLERANCE,UNITE,FIGHT RACISM,LIBERATE OURSELVES,SUPPORT THE SCENE AND GO FOR STRAIGHTEDGE..We've seen so many bullshit things happened in our BELOVED scene back in the old days and PLEASE ! don't let it happened again..That's all for now..THINK !

XxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxXxX

A VERY IMPORTANT MASSAGE TO ALL HARDCORE PEOPLE...

Lately i've noticed that our worldwide HC people had been looking down on each others for not being 100% devoted to the scene.Vegan sxe'rs look down on sxe'rs, sxe'rs look down on posi-core kids,posi-core look down on normal HC kids..and so on.How many times do we have to shout for unity ? To all HC bands what kind of unity are you shouting for ? unity among labels ? vegan unite with vegan,SXE with SXE..is that what you mean ? bullshit ! This labelling thing really annoys me..why..? coz i'm a victim too...To everyone involved in the U/G scene please remember this..we are a very normal human beings, there's no extra-superficial power in us,as an ordinary people we makes mistakes...and above all we are equal no matter what our skincolor is..UNITED AS ONE HUMAN RACE!





MORE FLYERS!!?!

**Coked issue 4 : Early June 1997 : Not For Sale : Permission To Copy Granted : Spread The News**

## entry

Welcome gentles all to the 4th release of Coked. It is now the month of June....and we'll be having another $8/- bucks gig that will be held at Fire Discotheque on the 15th. from 3pm to 7pm. presented to you people by Psychic Scream Entertainment. Why do I mention this? 'Coz this time lets talk about gigs in all it's glories and perversities.

## the pit

know what THE most important thing in a gig is? THE PIT. this is what differentiate a gig from any other music gathering. this is the place where you can release all your pent up emotions..all the anger..all the sadness...all the energy....jump...slam...mosh..pogo...dive...headbang...anything that caught your fancy at that moment...just do it.....now, let's take a trip down memory lane...remember when say if you're in the pit and suddenly youtripped and fall on the floor, there will always be someone pulling you up with a smile.....just think about it...a total stranger having fun together...no awkwardness...just enjoying the moments together.....but somehow over the years...the ugly head of fighting in the pit reared up.....and then there are those wearing sharp spikes .....what happens to good, safe fun?what happens to the feelings of togetherness in the pit?boots slammed up to your faces.....it isn't safe anymore.....then there's the factions where you can see if say; the band on stageis a hardcore...then the crowd will be made up of h/c fanboys only and when the bands changes to a punk streams then these h/c wil pull out as if there's a change of shifts.....ha..ha....weird....looks like biased to me. And please..please..please..no more fighting in gigs ! this is the place to have fun..the gathering of friends...not a place to prove your manhood or to show off your egotism !

## the bands

the thing about bands playing covers has already been talked about so I won't go into it for now.what I'd like to talk about now is about the bands themselves.most bands they sings and carry on about injustices... unfairness...maltreatments.....cheated.....etc....but then; that's all they do....rant and rave but no actions... Duuh..what's the use then?here you are on the stage...screaming your hearts out...then when you feel cheated by the promoters of the gig about your pay (which is the same as centuries past during the $5/- bucks gigs)...or about the treatments you received by outside promoters (if you're from out of town..like places to crash .... bla..bla..)....so then, instead of just talking about it..do something...if you're not satisfied...stop playing for these dripheads...demand your rights! get what you deserve! actions speaks louder than words....you wanted to join the scene 'coz this's where you said you can do things the way YOU want right?if you're not satisfied about it then do something about it....the power is in your hands!

## $$$$$$$

nowadays...if you're playing for gigs that cost more than ten bucks...then you the bands...should get paid the amount that you really deserves....especially if you're playing at a major event place like for example Life Centre....you should at least get a four figure payment.....'coz this piace is BIG.....there shouldn't be any discriminations...it doesn't matter if you're just a small time band or have released your own album...this is the underground scene...where equal value and rights is the name of the game! And if you're playing for a $15/- gig then you should be paid more than if you're playing for a $8/- gig. and by the way...if someone can do an $8/- then why should there be an $15/- gig? If they'll be paying you more and the sound set-up is better, all to the good but if not? THEN it's ridiculous ! you're only making these leeches richer instead of the bands whose sweating themselves silly on stage ! stop this injustices now !! let's look at it this way..you get paid more ...you'll have more money to do demos...can pay for jamming sessions....take your girlfriends on a date...whatever.....right? right. So let's hear it for the betterment of the scene !

freedom have to be defended for all time.....and can be taken in an eyeblink ! be vigilant...always.

# ANECDOTES ??

## IGNORANTS IN OUR LOCAL HARDCORE SCENE ??!

Since i"ve joined the u/g especially the HARDCORE scene i've seen a lot of ignorance act done by probably the new faces in the HC scene.These act that they've done not only gave bad impression/thoughts from our society towards our u/g scene but from our scenesterstoo besides These kids that i"m talking about also making total fool out of themselves .Here,i would like to list some of their "act" but i think that there's more stupid + unreasonable act done by these ignorants.....

# I.Listening to HC for it"s music.(HC is a lifestyle.. fruit ! loser ! )
# 2.Thinking that HC is just about dressing up & at the same time supporting those bloosucking profit looking firm by consuming their products.
# 3.Listening to mainstream bands like Biohazard,Sepultura,RATM Pantera etc..& call it HC. ??!
# 4.Went to a local gig just to stagediving,pogoing,acting tough,and promoting violent..?

# 6.Lack of respects & not accepting others choice...
# 7.Creating chaos/making noise in public places that causes discomfort feeling towards the undregrounders.
# 8.Creating divisions & labelling people.(which is totally unnecessary )
# 9.Dissing off the straightedgers and vegetarians(for living better lives than theirs )

So,in conclusion i hope that this kind of people will leave our humble hardcore scene alone.And please, stop calling yourself as HC If you don"t profess the HC attitude.....

xxx i came across this article in 90's choice fanzine and it was written by mai of OOSzine & SPLATTERED BRAINS zine.Anyway i think this is very damn good article about the SXE reality and i dedicated this article to all ignorant HC kids out there who kept mixing non sense stuff into SXE philosophy.That's all 4 now so go on..start reading,thinking,compromise & stop dissing our local straightedgers .for pete's sake ! -XeddieX

THE SAD FACT ABOUT STRAIGHT-EDGE UNDERSTANDING.

Ask anybody within our local HARDCORE crew about SXE,and I'll bet 8/IO that they'll say "we are not SXE coz we're muslims ".This is the common misunderstanding among the local HC people.You see,most of these kids think that SXE as some kind of religion,and when it comes to religion it freaks them so much without ever thinking the real massage of it all.I had currently point out that SXE is not a religion,therefore it is not wrong for any of us muslims to become SXE.While there are many kids in the local scene who are very much into the SXE mentality,they are very afraid of being criticised by the ignorant kids.As far as i can remember,the local HC kids had so much against SXE for no concrete reasons( apart from that they enjoy smoking very much ).There are only a few SXE people in the scene and I admit that i am one of them and these people had been dissed off by the "posi-core" crew.

Does SXE have any specific rules ?i think what confused our local kids is regarding the issue on veganism.You see, most of these kids think to become a SXE,u must also be a vegetarian.This is basically due to their own lack of knowledge & maybe lack of interest in understanding the philosophy.There are no rules made by anybody that says you must be a vegetarian to be SXE.Another exceptable fact is maybe due to the majority of the kids who got into HC after listening to bands like Shelter,EarthCrisis,Youth Of Today who brought in vegan interest into SXE.Another fact is maybe they've come to discover that most of the bands they're listen tc are vegetarians.Most of the kids here are also confused about the term SXE,krishna,vegans,..etc.Some even think u must be a krishna if you're SXE.There are also people

who really understand the whole concept but ignore it coz of their own personal weakness. Instead of admiring & supporting those who are into SXE, they point fingers & shout abusive remarks at those who denounce cigarettes, drugs, alcohol & casual sex by using religious sentiments.

Look, to me, if you're not smoking, not doing any drugs, don't drunk, & not involved in casual/illicit/explicit sex then you're a sxe'rs whether you realise it or not. Straight Edge is a lifestyle and philosophy which promotes poison-free consumption as in cigarettes, alcohol and drug substances. To be or not to be a vegetarians is your choices. Anyway, SXE is always a personal choices. Even in your religion, it is wrong to harm yourself with the consumption of drugs, alcohol & tobacco. Most religions also prohibit casual sex. So there is nothing wrong with comitting yourself to it. Being a sXe'rs doesn't mean that you have deviated from your faith. There are no "fatwas" or ruling that say you've deviated your religions if you dedicated your life drug-free. In fact, it kind of make u more religious no matter what your personal beliefs are.

Before we can preach about positiveness & reach to others by our music & lifestyle, we must first see ourselves & commit ourselves to it. Nobody will take you seriously if your band sing about how polluted this world is, or how fucked up this capitalist society is when after the gig you're lighting yourself a cigarettes which is also a part of the capitalist products & what's worst is you're polluting your own world. I am not preaching againsts smoking, but before you can lay your judgements on those who aren't smoking & admitting themselves as "straightedgers" i would like to suggest to U to look at yourselves 1st before you go on & slag other people. SXE is a personal choice, those who choose to become SXE did it because of their own self-conciousness. They do not harm anybody. Just as you choose to become a smoker these people choose not to. So why are you slagging them off ???

Finally, i want to repeat again & again that SXE is not a religion therefore it is not wrong for us to become a STRAIGHTEDGERS. If you choose not to, that's perfectly understood but DO NOT persecute others who are into it by using religious sentiments that you..yourself do not commit yourself to in the first place.

WHEN CAN WE LIVE A FAIR LIFE ????????????

What do you think after reading the title ?..Do you think that we are living a fair life ? yes ?...think again !Is it because you're living easy under the government payroll that makes you say that..while others,i mean billions of people in the third world country live in poverty & suffering from unexplained disease ? is that fair to you..?Do you think it's fair for an ex-convict live in chains under the corrupt government/authorities while thousands of corrupt politicians or any other white collar criminals outhere live freely by taking out our money & avoiding the taxes ? Is it fair for kids like us got beaten up in police detention before we're even found guilty ? while the real criminals live happily with the money they rob from other people ? Do you think it's fair to us after the gov. decide to banned our U/G society(who tried hard to spread the truth and makes positive changes),and called us stupid and saying a lot of exeggrating stuff which is not true at all ? while the other mainstreamers are free to spread their idiotic massage and negative influence.?Do we have to join the mainstreamers so that they'll call us positive...? hell..no..! Do you think it's fair for us to live in a prejudice and racist society... that means everywhere we go we can expect a lot of eyes staring at us like we are criminals or something...while other poisoned minded youth are free to go everywhere they want to..What do you think that makes the government slaves have the right to look down on us..?Do we the undergrounders have to follow all the government stupid rules..so we can be equal to those prejudice society ? If that so i rather be dead than letting myself to slavery.Human are created equal..none of them are created to be slaves and none of them wants to be one. To all undergrounders outhere let us unite our mind and create a superior conciousness towards our freedom.Don't give a damn about the society..If we don't start now when can we live a fair life...????

Ethics : moral principles. the ideals and beliefs that we believe in and uphold throughout our lifes'. These ethics are what made us who we are. one of the pillars of ourselves. should life be without ethics.....than we are nothing more than unthinking automaton. and life as an undergrounder means a life with the most virtous of ethics.....to be uphold and fought for; for as long as we claim ourselves to be an undergrounder. it is these ethics that we have to always be proud of and stand firm upon. no matter the circumstances.....no matter the temptations.

loosely....among the ethics that exists in life for an undergrounder (also applies to the world at large only not all practices it) is to always be honest first and foremost to yourself.....because if you cannot be honest to yourself...than how do you expect people to trust you? Than.....honesty in all dealings in life.....wether to friends.....families.....anyone. uphold all the words and promises that you made.....what is there to be gain by bragging and making up stories to people that befriends you? to earn trust..you have to give trust....to earn respect..than you have to give respect.

Equality.....the beliefs in equal values and rights until proven otherwise by their own actions. Never judge people by their first impressions....always be willing to give the value of the doubt.....only when all has been said and done may you deliver your judgement. stand firm and act out in life whatever that you proclaim you are.....excerpts : 'cheating judases, doubting thomases; don't just stand there and shout it...do something about it' by Depeche Mode. as i've written before....action speaks louder than words. anyone can say anything they feel like saying.....only by proving it can they earn the respect and be taken for who they proclaim they are. so people...if you cannot in all honesty do the things people or the world expects of you...there is no shame in admitting them.....and always thinks before you wanted to proclaim who you are to the world ! don't go around saying this and that when it's only empty air ! don't go around supporting this and that if in your heart you don't really believe in them, but only doing it for the glamour and fame ! Bah ! if so you're nothing but a bloody hyprocrite ! and the worst a person can be is a cheating dishonest hypocrite ! you know who you are !

these are just the basis of the ethics withold in the scene.....of course there are more to it depending on what you individually believes in. but always remember to be the whole that you can be no matter what. Stand firm in your beliefs of what's right ! Don't let anyone or anything compromises your principles.

## LABELS = NO UNITY ?

The idea for writing this article came to my mind after watching a gig held in K.L somewhere in OCTOBER.Well, back to the story,i'm gonna qoute a phrase from Y.O.T "hit" song it goes like this..."I used to think that labels were just symbols of pride,but overtime i see they only serve to divide ".Well haven't we learn from past mistakes ?How many times must RAYof Y.O.T (Not shelter ) have to shout about this ?Why must we labelled people ? I just don"t care about you guys/gals labelling people in the mainstream world but in our own HC scene ?? I just can't take this anymore ! What ? Never heard of HC people being labelled Well, here's some example...have u heard about posi-core, straightedge,vegan,hardliner..etc.What do you think about this ?Competing with each other to show how positive you guys are ? HEY ! to me HC is about positivity that we practise in our daily life not to be compete upon ! This is why since the existence of HC unity never seems to work ! altough more than 20 years!Hc bands shouting 4 unity ! IS there anybody out there know how to unite these idiots !? How can we move forward if we"re segregated ? So from now on i don"t want tc hear our local HC kids divided and fight with each others coz of some stupid reason.That"s all for now..THINK and compromise....

WOMANS.....IN PRISON ?????????????

Nowadays,i can see a lot of people in the world both male and female sees their opposite as an object of desire.But as most of you guys will agree the women are the one who's suffering more than their opposites.Well, i'm sure everybody are not denying the fact.All i'm going to write for the rest of this article is a true story of what's happening to their side(female) nowadays especially in the third world country.The womens in this part of the world nowadays are denied their equal rights such as the right to control their own fertility,and the right to work and therefore they cannot fully participated in this so-called civilised society.These sexist that are denying their rights have 'assigned' these women to the role of cooking,childminders and their place is "destined' at home.I believe that the roots of women's oppression lies in the divisions of society into classes and the economic and social relation ship that's been created by the system.There4 i believe that for women to be really free we have to smash the system and build a society based on equality,trust,respect and faith.I am 100 % disagree with those feminists who think that all you have to do is for women to become bosses and politicians to achieve equality.All we have to do is to destroy the existing power structures and the barriers that state we male and female are not equal.I've also heard that men are the cause of women's oppression and i don't agree with it at all but i won't deny the fact that men gain from this.( i identify the sources of this oppression as the class system not individual men )

Women's oppression is not purely a struggle for women as it is a class issue but women have the rights to organise separately coz it's they who suffer the oppression.I'm sure u guys out there believe that the priorities of the woman's movement have reflect the fact that it is largely consist of middle class woman.I believe that it must become more relevant to working class women.I believe in the rights of women to control their own fertility.Women must free to decide & as a human beings they have the rights to have children or

not ,how many and when.The closest oppression on woman i can get is in the republic of CHINA where married woman are limited to 1 child per/family.( What the fuck is this ? birth control..? overpopulation..? ) Therefore i believe in the right to free contraception and abortion on demand.For these demand to won,i hope as many working class women as possible must be brought together to build confidence and defeat the isolation that comes from being in the home.Thus,in campaigns to win these demands our emphasis is on building in workplaces on the estates where women are directly affected.Together we strive for equality ...fight for human rights,.....

# AN INTERVIEW WITH XSAHAX

Hi everybody ! So here we have an inter-view with XsahaX, the most hardworking SXE"rs in M"sia.Read what XsahaX has to say about HC,SXE,Diy & lots more.....

XXX First of all,tell us a bit of your background,how the hell you got involved in the HC/Punk scene,what does it means to you,your contribution for the scene so far,and your future plan for the HC/Punk scene ????

XSAHAX.....

-there's not much to tell about myself,i'm 22 and still unemployed, i came from the working class family and i'm single.i listened to punk rock/garage music since 1990 out then at the time it was just about get some fun,listened to music and be a little bit weird. hc/punk means a lot to me,it's about searching for something that you're looking for and to find the right answer for yourself.i'm doing a zine,a newsletter,contributing,bring some zines from abroad and right now i also doing a tape label so i have much more plans for myself but things change,i don't know what will happened tomorrow or for the future and i don't know what will happened to the hc/punk scene in the near future,hope it will developed in a very positive way.

XXX Are you a SXE'rs ? What do you think about our local SXE scene compared to the old days in early 90's ? What do you think about the singaporean SXE scene ? and how long can you last being a straightedgers ?

XSAHAX...

-as you might concerned,yes i'm sxe.our sxe scene is still new and not progressed very much but compared to the early 90's,i think we have a very good new sxe scene with lots of new kids get involved,we have at least 4-5 sxe zines nowadays and maybe there's a sxe bands outhere that are still unknown.i think this is a very good year to progressed and developes our sxe scene; all sxe people should communicate and learn more about the hc scene because sxe is not about baggy pants or x'ing your fist,discover more and understand more,i'm sure if we together there's no one can bring us down, not even the posi-core crew or the muslim-core crew.(??!)
i don't know much about the sxe scene overthere but i know some cool sxe people; their vegan movement is very big and so some of them i think being too much.but i have much respect for kids such as shaiful(zerox'zine) which is one of the coolest vegetarian sxe kid overthere.
i don't know how long i can last.people's change,things change,so do i.some people that i know is sxe before has just flipped out. did it never cross your mind that maybe i could be one of them? i can stay drugfree forever but about being sxe? i don't know,i'll still hold to the ideals but might be not entitled myself as a sxe for the rest of my humble life.

XXX What does DIY means to you ? what do you think about people who want to make a living out of the HC/Punk scene?what's your opinion about StrangeCulture Rec. which recently gave permission to TOWER records to distribute their stuffs ??

XSAHAX...

-diy means a lot,it is the roots for everything in the underground scene.it's mean do all you wanna do by yourself and at the same time stay in the scene and never cared about what's been happening in the mainstream scene,it could be more than that.i don't have a problem with that,if they want to make aliving out of the hc/punk without taking a lot of money from the people that is involved then i think it's ok.but the problem cames when there's exist a people like strangeculture recs that is only exploiting the scene and know nothing about the hc essence.i don't know that strange culture already did that stupid thing,it'sonly make them looks more disgust in my eyes.hope this won't happened to our sxe scene. what the fuck is tower records,by the way?

( TOWER rec. is the biggest records stores in the world with more than 100 branches worldwide )(opened in K-L recently !!)

XXX What do you think about HC bands like Shelter,SOIA, Madball..etc signed to major label ? What do you think about major label and the bands signed to em' ?

XSAHAX....

-i think they're not hardcore anymore,from my point of view.for me hardcore bands will always be a bands like four walls falling,monster x,etc etc that is in the independent labels.hc bands that went to major automatically is not hc to me,they're no different with the bands such as green day,pantera or even metallica.

XXX There's a lot of HC bands today play those metal style music and call it HC..what's your opinion bout' this ?

XSAHAX....

-i don't consider it as a hardcore music,it's pure fuckin death metal music to me.evilcore or what they called it? darkside? it is stupid,to me.most of them i think is only in it for the sake of playing music.nothing more,nothing less.

XXX What do you think about HC bands spreading racists beliefs in their songs ? In a multi racial country like ours..do you think racist exist ? especially in the HC/Punk scene ?

XSAHAX..

-this is more disgusting than being an evil,i guess.bands such as one life crew should not be supported,not even the label once they were in it.malaysia is a country that is full with racial prejudist, haven't you noticed about it yet? not only in the hc/punk scene,it has existed in the society,communities and in the people's brain. i have experienced on this,lots of it.it's really scary,racist people by all means are dangered.they're mad,crazy,idiot,gila,biol, otak tak betul,moron,annoying and should be buried alive!

XXX Recently a huge parts of reserved forests burned down in Indonesia which cause a disastrous air pollution esp. in M'sia.What can we do to stop such pollutions be it..air,rivers,lakes...etc..

XSAHAX...

-yes,i knew about it.it's terrible and it's sad that we can do nothing about it.the goverment have a major responsibilty on this,they have everything; equipments,volunteers,financial etc while we only have a hope that the haze will fade away.i mean,what can we do about it? gives more our money? no way!!not even a cents.what can we do to stop pollutions in the lakes,rivers,seas is by not throwing something stupid in it,looks easy hu? but the problem is,pollution is not made by a single person.the factories,construction workers,petroleum users,etc etc are the biggest contributers.what can we do? i don't know,you tell me.( you tell me.. i asked you first !? )

XXX What do you think about nuclear power/weapon and the country that misused it ? Is there any way we can stop them from using the weapon ?

XSAHAX....

-nuclear power or weapon or nuclear cat or nuclear pig is not necessary at all.it's only bring death and destruction.there's nothing major that we can do acout it,look what happened to the greenpeace units when theytry to stop nuclear testing in mururoa island in the pacific.even our heroes can do nothing about it so how can we? but i guess,there's still hope(if god's willing to openedup their brain to stop nuclear testing).

XXX Drug is the biggest problem in the HC scene now.. Can we consider direct actions to those druglords, addicts..etc ?

XSAHAX....

-we are not superman to stop this drug problem.but i think to prevent drug using is by stopping all the tobaccos industries. boycotting the industry is a part of direct actions too.i don't know how to deal with the druglords/dealers,it's not our main responsibility.we are not inviting the drug using in the hc scene, aren't we?so if people want to take drugs,go to the appropiate place to destroy yourself.

XXX SXE and veganism among muslim kids are the hottest topic in the scene i believe..what do you think bout' this ?What do you think about the hardline movement ?

XSAHAX...

-maybe this is still the biggest, the highlights, the popular topic or whatever in the scene nowadays but it's boring the fuck out of me. i don't know what it's all about, i think the whole argument is making our scene segregate, got to stop it. there's no hardline movement in malaysia yet so, i have no comment, thank you.

XXX Nowadays, if you go to gigs, you'll see so many girls..what do you think about girls joining the scene ? do you have anything against them ?

XSAHAX .....

-no, i have nothing against them as long as they have nothing against me. support each other, that's the idea. if someone have a positive purpose to joined in the scene, i have no problem. but if they joined just to be fame, get some attention, looks cool then i have a real big problem with them, be it girls, boys, male, female, superman, orang utan or sinbad.

XXX IN SXE illicit/free sex is something to resist..so what do you think about abortion that for surely causes by free sex ?

XSAHAX...

-i think there's a lots of people practising free sex and most of them already knew that they might get pregnant so there's a lot of initiative which they can used to avoid from getting pregnant. in sxe, we already knew that illicit/free sex is something that we must prevent so don't do it but i don't care if people want to do it if they really want to. personally, i won't do it.

XXX Every years..there's a lot of HC stuffs ( demo/zine ) exists..but some of them sells their products for a very high prices ( RM 5-RM 7 ) which don't seems to reflect the DIY spirit.Anything to say bout this ?

XSAHAX....

-i'm not sure the fair price for the zine overhere.I sell my zine 4Rm for each copy and i think it's quite fair becoz i have put much effort on it.i think selling your zine for 5rm is still ok becoz usually the money we(theeditors) get,we put it back in to the scene,to covered up back what you have loss.i admit that i do take some profit but i don't used it to buy me some chewing gum or something.actually,i loss much of my own money.i think if you sold your zine for 10rm and your zine is just filled with cut and paste materials then i think it's not fair and it's certainly not diy. (ed...this zine will cost you RM 20 ! ha..ha.. )

XXX What about bands shouting about politics/politicians, What do you think about this ?By the way what's your political ideology ?..

XSAHAX...

-if the bands have a strong belief in what they said in the lyrics i have no problem at all.there's a lot of good political bands outhere but unfortunately,i'm not much into this topic,sometimes it's just so boring but sometimes i liked to listened to what they have tosay coz usually political bands have something that important to come up with.I always believes that we should liberates ourselves from any form of power made by the so-called authority.Every single person in the world has the rights to do what's right for them as long as it won't harm anyone,that's some of my political ideology,pretty lame hu?

XXX Our society always looked down on us no matter how positive we've tried to be.What changes would you like to see in our society ?

XSAHAX...

-this is something which is really really hard to achieved.to changed someone's interpretation is like to change the whole world into a peaceful place.it's not something that we can changed it only in a day.we don't really have to try to be positive to changed their perspective toward us.just be what you really are,be honest to yourself,for me that's more important. i don't hate people for what they are as long as they can respect myself in returned.

XXX When we talk about HC/Punk,basically it all comes down to communication right ? But for what I've seen our HC kids is very lack of communication which cause segregation, no unity,separation...etc.What's your opinion ? Do you agree with this ?

XSAHAX...

-i can see what you mean and yes,i do agree.people should have to start communicates with each others,respect and should learned how to accept the so-called hc-punk lifestyles.the main cause for segregation and separation is becoz lots of people actually don't really get what hc/punk is all about and then when someone's came up to them and tell what exactly hc/punk is,they couldn't believe and won't accepted it.that's the causes of kids are divided,no trust and no unity etcetc...for not sharing the same ideals about the scene.

XXX Our government is & still trying their best to extinct the U/G scene.What is the least we can do to protect the scene ?

XSAHAX....

-keep the scene away from the negative aspects.keep it away from the medias and keep it unexposed cut i think they can't just extinct us becoz we didn't do any harm to people,i believe they didn't have much guts to do that.but if this really happened,we should put all the blame to people that don't really believe in the scene,that only in it for fashion,for causing violence,for bringing their stupid behaviour into the scene.be positive,it'll keep us strong.

XXX We'll that was a very long interview,want to add any last words or advice..maybe..?

XSAHAX

-yeah,a long ass interview but i really enjoyed it.i won't do any last words again,it is like that you're gonna die tomorrow so no last words.i have talk too much,anyway just be what you wanna be,don't harm anyone and be good.thanks as always.

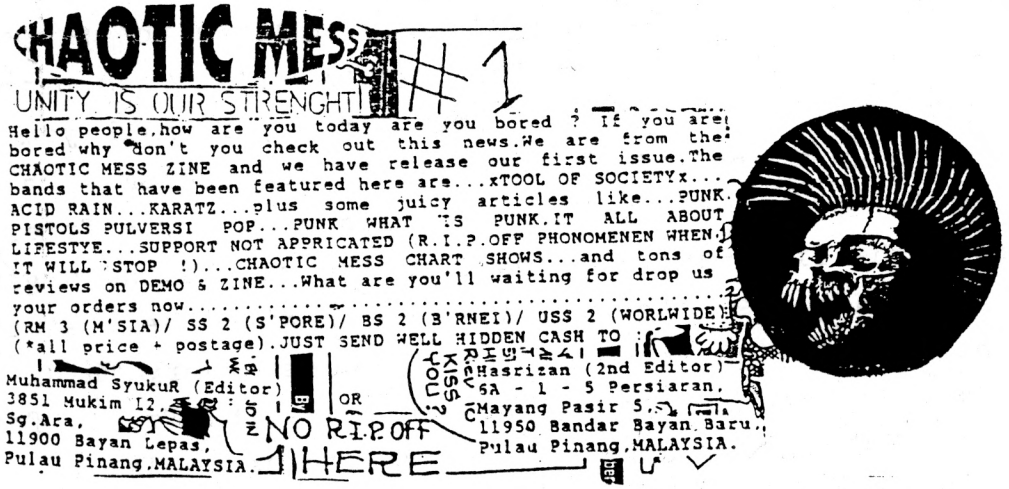
ANARCHISM...YOU...ME..CLASS..OPPRESSION...!

When we talked about anarchism i"m sure you guys out there are led to believe that they"re somekind of mad bombers.Every other group that lets off a bomb is immediately labelled anarchist whether they be nationalist, socialist or even fascists.The myth is created that these anarchist believe in violence for the sake of it and some say anarchism is chaos.This unreasonable myth is claimed by politicians,bosses and their hacks in the media that if there was no government there would be chaos.But do you ever wonder about society today and come to conclusion that perhaps we're living in chaos.Can you count all the chaotic country in your one hand...?
What is anarchism is all about..? At the moment thousands of builders are on the dole yet homeless people needs housing to live in.The price of food is increasing every



year.Thousands of people are dying of starvation around the worlds while millions of dollar are spent every single hour on nuclear arms which have the potential for wiping us and the world out.Why is this so..? I can say that there"s only one BIG reason...PROFIT ! . At the moment,we"re living in a society with two major classes – the bosses and the workers. The bosses own the factories,banks,shops,courts?....etc while the workers don"t.All they have is their labour which they used to make a living.Workers are compelled to sell their labour to the boss for a wage.The boss are only

interested in making profits out of little wages as possible. The workers and the bosses interests are in total opposition to each others.Production is based on the needs for ordinary people.Production is for profit.Therefore altough there is enough food in the world to feed everyone,people starve because profit comes first.This is CAPITALISM ! and this is what we have to refuse and fight.Next..the state.. What is the state..? As you guys have read before..the workers and the bosses are in total opposition of interest to each other.Workers need to be fully unite and get rid of the bosses.But this is no easy task.The bosses are organised.They have media on their side.They also owns the state,and the force of the army and police that go with it.The state is used by the bosses against the working class.The state ( governments,armies,courts,police..etc ) is a direct results of the fact that we live in a class society where 10% of the people owns 80 % of the wealth. The state is there to protect the interests of this minority,if not by persuasion then by force.Laws are made not to protect us but to protect those who own the property. This is not fair to us and to all the working class people out there.This is what we must fight.Anyway i think you guys should know about this.This is what anarchism is all about.It is not about rejecting religions,family & friends but about the fight in bringing down the people and organization that has been stepping down on us with their stupid laws and regulations which is totally unnecessary.Think again about your life within the government eyes.That's all for now,i'll just leave you here with this three words... GOVERNMENT,CHAOS...and ANARCHISM...
