malaysian product underground +skat+ zine! MoSH! #1 by BATMAN DISTRO 1999.

mosh's page!

We meet again in another issue of MoSh! So, wut do you all think of my previous issue? Stupid, right? In this second issue I've tried my best and done it carefully. Hope you guys will find it more informative and interesting. Now days, a lot of u/g editors also feature something about skateboarding in their zines and stuffs. For example, HardKoi, xSimplex, Bed #3, Anti Zine and a lot more. There are also skate zines that feature 100% skate stuffs like Sandwich and 50% skate 50% music like Spotlight. So, I guess MoSh! is an u/g zine that also features skate stuffs from Terengganu.

In this issue, some of my friends helped me a lot. So, I wanna thank you guys out there. I'll never complete this issue this fast without your help.

For this issue, I have made three interviews. Two local bands and skaters.

So, enjoy it. Maybe the questions are quite boring and stupid. Maybe because this is my first experience in interviewing people.

Aku mmg tgh kecut perut gile babi. My SPM examination is just around the corner, buy I'm still busy with my zine. I'll stop making MoSh! for a while and my 2nd issue will be out after my SPM exams or maybe earlier, but I'll do it slowly. There's many other zines in Malaysia that you can buy. So sorry guys!

Ok la enjoy this issue. At first I felt like releasing it in April/May. But my fwens (MoSH crew) just can't wait to read it and keep it as their collection. So, thanks for your help and keep on contributing. I need more photos, articles, poems, opinions, tapes, zines, news, reports and shits.

NOVOKANE (DEMO)/RM6ppd

Novokane is a grunge/metal influenced band which was made up of 3 creative youths. Their music blends of creative and angst-driven kind with heavy guitar riffs and creative drumbeats. Check out the drums, full of energy and which is the best part of this must-buy demo, along with the strong vocals. 90's metal is what they call it. Check out this demo and feel the beat. *Reviewed by Pangspeck.* (check out my interview-ed)

Pernahkah korang fikirkan berapa bnyk kertas yg kite gunekan dlm kehidupan sehari-hari? Dari surat khabar hinggalah menulis surat, kertas digunakan dlm jumlah yg bnyk. Langkah yg bijak ialah dgn menggunakan semula kertas itu. Jika kertas yg digunakan hanya sebelah, cume terbalikkan kertas itu. Korang akan ke mendapat sumber yg baik utk kertas kotor, Klipkan kertas-ketas itu dan jadikannya buku nota yg berguna. Nak tulis email org ker, no telefon awek ker... Bnyk kertas yg dibazirkan di pejabat²& pusat pengajian. Nasihatkan member² korang utk buat begini juga supaya kertas tidak dibazirkan dgn bnyk. Utk kertas yg digunakan separuh/sebahagian shj, potong bhgn yg masih kosong dan gunakannya semula utk menulis memo/nota. Adakah ini susah utk dibuat? Aku rase tak sgt. Local skaters? Hmmm...for all those mention "jangan kembang punkoq". I like Pa'din (penang), Jre (ipoh), Ah Thong(ipoh), Amy (klang) and I dunno, I just have four cool skaters in mind here... ha okay, Ijam from Kulim, he did pretty good hard-flip. Sandwich skatezine asked you guys to be facist and no bladers idoeiogy, cool daring thing he made up. Maybe he got something personal with these rollerbladers until he got mad at them. I know why he really hates them, hehehe. Just something like he prove to us he can do things rollerbladers do in 5 minutes like jumping over a barrel with 180 spin and 360 spin. He can do it in just about 6-10 minutes practise the first time he on a rollerblade. That proves rollerblading are so easy but the bladers are so fucking proud of themselves doing easy things. Shit! There's other reasons too. So fuck it!

Comments on SCR?

SCR is old story. People in Malaysia cant except u/g's stuff in shops yet but SCR is really some lying shit that they used major label to spend for them. Where did he get those money? He's just a jobless guy and suddenly everything is sold in shops and have good quality. It's just another major label with small bands and small man running it. Don't fuck them too much, who knows one day a new indy lable show up and it's our type of guy and people hate it. How would you feel? Just don't buy at the shops. I never buy or listens them at all.

Band's and your future plans?

Hope to sign with big indy lable like Fat Wreck or Epitaph and other lables in the world. Plus Beer City too. We want to release good stuff in the right way and the same massage, no matter how I change, the massage are the same. I will be the same person too. No kidding. If you seem to see a sexism in me, so what. You want just boring dude who jumps while holding a guitar. It's only a stupid picture. I love the picture, it's a beautiful piece of art.

Comments on my stupid MoSH?

Yes, keep on the good work. Maybe we could join venture make some money and make a magazine with our own money. Make our scene notice in all aspect and different perspective. Plus become one of the skaters bible in the world. Soon I hope.

Last words and thanks?

Thanks to you, Pa'din Sandwich, Zahid Raincity, Vinh (Vrtical Speed) for the show, AMU, Spinning Jerks, Toxin 99%, Meor Ipoh, Shawal from Kuala Kangsar who moved to Terengganu for the Ipoh gigs, Zahid raincity and more and more and more thanks to Yasmin, you make me sick but I love you shit!!! Thanks you and see you guys around. Keep in touch and keep on supporting the reel thing in life. Fuck morons! Fuck yeah.

kolekszine.blogspot.com

just about having sex? Think about it. So many ways in life, that means more way to show love. But all I see is the rise, the rise of adultery. It happen in our scene and friends and to me too. Got it. So watch out for their words.

Your opinions on skate scene in Malaysia?

Skate scene is getting' pretty big and let's try to make it that way. The prove are more skate shops, underground + skatezine and more scene including people in the lost city area. We see more skaters around and pretty good too. So let's promote skateboarding anyway we can and let them stay away from shit ideology like drugs and bad guys. Nigga aint giving antyhing to us! Drugs are no good. Use skateboard as a nicotine. It's better then ciggarates.

Some say that local skaters are bunch of yuppies with expensive cloths. Comments?

Yuppies? Well, I have to say, that guy must have been sleeping and to proud of his old-timer or "otai" status in the underground scene that he had right now until he forgets and that skaters are around him and some of them are his friends. Let say he thinks he's macho and far too egoistic. I never had this answer even from the overseas. Let him stay with his own scene and let him grow without us. Who needs them? We can still gets cool stuff from Choice Distro, Illusi Distro, Pustaka Distro and some other distro here. Let's just forgets that this distro ever exist. We can even get it ourselves. We never intent to start a fight but they never changed their freakin mind! Even though some of them used to be a skater. It's not just fashion, it's a clothing a long time ago, not just business, it's just skating. It would be boring if it's just the same thing and the same logo, so what's wrong with some fashion? Are they spreading jealousy and ideology making people to hate skateboarders and not to make people skate? He knows that it's cool to be wearing those expansive shoes.

Why? Simple, to protect our feet and do all of us wear those branded pants? No. that's why there's hatred against them now. Who cares about them now. If it's branded pants, it's just a skate product, so what?

Poseurs. What kind of people can be labeled as poseurs?

Posers or poseurs are the same and they are shit like to go to impress anything especially girls that loves skating and other stuff (u/g scene included). Posers are people who are trying to be or to do what they're not. So, it's a beginning stage of every new kid, so there's nothing much about it.

List 5 favorite local skaters of yours. Comments on Sandwich?

NOVOKANE (pj)

Voon Kee, Amit, Eugene, Joachim (g) (d) (v) (b)

Ok, for this first issue I've made some interviews. This is the first the first band that answered to me. So enjoy this short interview with its front man, Voon Kee.

How are you and first words?

-I'm doing fine, thanks. We appreciate a lot for writing to us. Thanks.

I've heard that you guys played grunge. Do you think that grunge music should go mainstream cause now days a lots of grunge bands sign with major label?

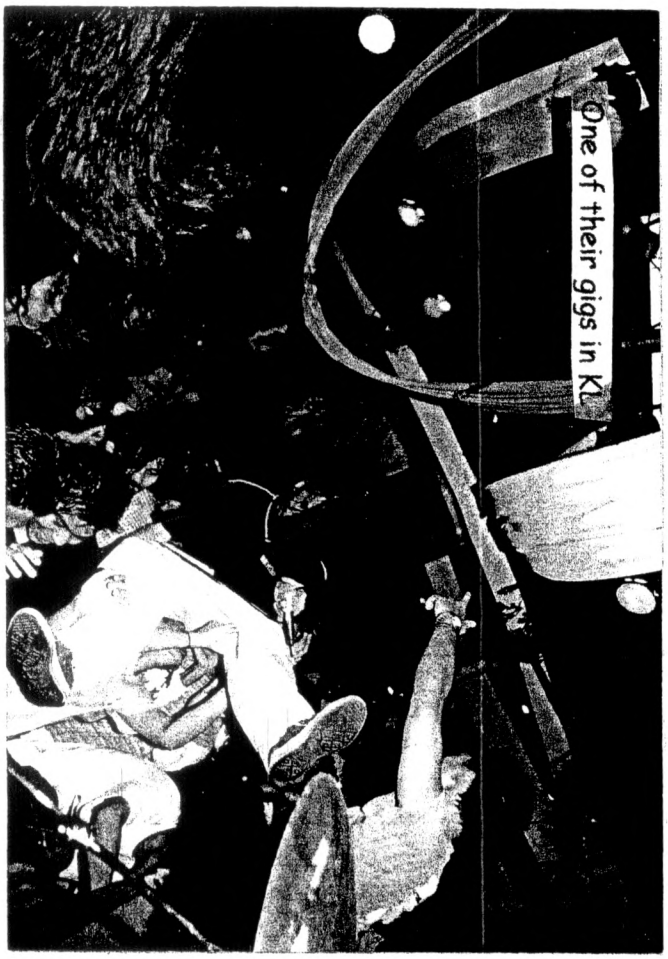
-Well actually we are not a grunge band. We basically play rock music. Our demo stuffs sound a bit Helmet across Tool with some Deftones influences. About our history, you can get it through e-mail. novokane70@hotmail.com

-Well I guess most bands today just wanted to have a good deal with major labels so that they can get good promotions, wider distribution, good income etc. signing up with major labels is ok, it doesn't mean that the band sell out it is just the right move for any band. Obviously, it depends on individually thinking.

Can you tell us something about the scene in PJ now days?

-Thank god the scene in PJ is coming up with a lot of new bands like Custom Daisy, Foreground Division, 18ggg, Seven Collar T-shirts/ Lock Down, Novokane and lots more. It's like a dream came true for me because I've been wanted to be in a band since form 3 and right after highschool everything pop us fast for Novokane, I really mean fast. It's like our old band is kind of suck because we don't have a dedicated drummer, and then we hook up with Amit and everything goes well, the demo, our own songs, all the gigs that we dreambefore. Right now, tons of new bands are coming up around Kelana Jaya and Damansara Utama areas. I think this scene in PJ is consider 'happening'

NAME: AHMAD NIZAMUDDIN ABDULLAH FORM 4 SK 1



One of their gigs in KL

because a lot of talented musicians just can't get along with the right band through out this few years that I noticed, and they went overseas for further their educations.

So, what is your opinion on Butterfingers? Are they [redacted] cool?

-well basically Butters is a grunge band and we respect Loque cause he is a talented guy. Their second album really mean something for the scene in Malaysia.

Hot topic in our scene now days. Comments on SCR?

-I haven't meet up with Tang(SCR) before. So, we can't comment anything on this question.

Do you skate? And what's your opinion on local skaters?

-Cool, I don't really skate but my drummer is an ex-skater. maybe you can hook up with him some day.(I'd love to-mosh!)

Can you list your favorite bands and zines?

-Our main influences are Helmet, Tool, Deftones. My personal influences are Smashing Pumpkins, Alice In Chains, Tool, Deftones, Stuck Mojo and a lot more. My favorite zines are includes Kerrang, SPIN, Metaledge and others.

Last words to the readers?

-We thank all our friends and supporters to appreciate us and accept our music. Thanks a lot, I hope our scene will produce more talented new bands.

C/O Voon Kee, 41 Jalan Gasing, 46000 Petaling Jaya, Selangor.

Ok, end of review. Thanks a lot to Voon Kee. Support this band. They are great. Good luck and more power to you guys in NOVOKANE.

Yeah, building up a society who can skate anywhere plus have protection in one name, Northern Skateboarders Society or somethin' else. I am still waiting for Pa'din answer to the act. Anyway, for your info, we're not Iansband anymore, we're "Terran 52" and will release ep out later. Totally fucked up band and not to forget a demo called Iansband dead!

History of Iansband,? Did you all of the band members satisfied with the name?
Gigs /releases? Satisfied?

Not really, the name comes out when people are hating each other except myself. So, no one had a choice but to cover 'em up but just puting my name in it. If you understand my meaning don't misunderstood. Get our real answer from Red Salad Blu Day #3 newsletter from Fida 90's choice.. I am too lazy to explain it over and over again. I am sick of it.

Right now, we have lots of shows but just one gig in Ipoh. We have 2 released demo already and it's cool for skateboarders out there 'cause we don't think skateboarders is just fashion. It is the way it is no matter how it's been trend or fashion. I love skating. It's like we've been looking like this for a long-long time and somebody said we're fashioned. Huh. *So, you are still studying?*

Yes, maybe soon for further study. Everyone is learning until they died.

Have you ever heard of Terengganu's scene?

Yes, I've heard about Narrator zine which I have one of it and Chaos PS zine. And now we have your MOSH for a change. Cool dudes! But I hate about some of them spreading PAS party support and other shit. Leave politics to politician. Don't be like me and the others.

If we invited you to perform here, would you come?

We'd love too. All we need just a little more supports from the scene out there like building some support buying demos, distributions and compilation of punk rock Malaysian style. We need more supports to make MWS bigger! It's up to you. We would play anywhere without racism, chaos and nazism. *The lyrics that you made, are there any messages?*

There's massage and also a stories that comes in my mind. Like for example, 'echos of politician' is for people to know that all politician are the same, lie and bad, it's like money and power and everything. We have been there and we have seen what politics did to our country: chaos. We must build a new politics prosedure or just to wipe all the politics lie, use anarchy. The rise is about love, but we Malay today are practising sex and adultery which is currently rising in our community. We are more open, that is what the rise all about. Is love

MOST WASTED ZINE TERRAN 52

First words to the readers?

Hi, support things that support us skating and never support from those who are not. We get nothing from 'em.

Are skate zines really important in our scene? Coz many thought it is just and not Ugers, so they don't support it.

Skatezines are for skateboarders and skating fan in underground or just normal people to give info about the real skate scene here and for all to know that we existed in this country, especially the government. It's a fan zine as protest for stupid people like governments poltician who always lie and lie about building and helping us for skate spots. It's about hate to security, rollerbladers and other ... The most important thing is that it's an effort to make our skate scene grow and some let's people know about the real underground scene at the same time.

So, I heard that you'll change the size of your zine? What are your target in doing this skate + music zine?

Nop, it's just experiment to hear people's feedback if we're alive or not and people really noticed it. Got on you too right? Well, we're back in the same name and decided to put up Most Wasted records, distro and skate zine products so skaters don't have to depend on suppliers that suck! If it happens in May, watch out for the list. Our target in zine is to make it into full coloured magazine like Thrasher, Big Brother but not Transworld. So people will more expose of the reel skate & music and where it come from. Emmm, where it came from?

Anymore projects beside zines and your band?

use your mind!!

Punks and skins are negative! -by MoSHBOY

I got an article from my teacher recently it discuss about the youth and teens social problems now days. The writer state that punks and skinheads are bad, against our local culture, negative movements, teens must avoid it and some other shits. Yeah it against our local culture. But if they think that it is a negative movement, they are wrong. Punks and skins are not like bohsias and bohjans. They should dig deeper if they really want to write about us. All they did was interview some poseurs and put bad remarks on us. Than, all the society will see us as bad guys/gals. If they say that we follow the western cultures, why do they wear coats and ties to office? Why don't they wear *baju melayu and songkok, baju kurung or songket*? So, THINK! We dressed differently and do spiky hair to show our dissatisfaction towards government now days who practice stupid law. UTUSAN, THE STAR, MASTIKA. Buy them, read them, learn them. Believe them not. Maybe some that they wrote are true. A lot of media now days are controlled by the government. So, there will be only good news about them and shits about the people that they don't like. This is what we call as CORRUPT MEDIA TECNOLOGY. UGers wrote songs that protest and f*#k them. But who are we compared to them. If they listen to the songs that our political punk bands' played, maybe the bands will be arrested under ISA. What a stupid law!! Is this democracy when we don't have the rights to voice our rage? Hahaha! If they said that we smoke and drink(maybe some do drink, but wise punks don't drink fools!), I think that businessmen and politicians drink and smoke more because they have more RM. Not like us. Drugs?? If you take drugs...you are not a real punk! But just scum. Destroy the disease. Mayb just a little do. A big F*#K YOU! Lastly, PUNK NOT DEAD!

SKATEBOARDING IS NOT A CRIME!

I'm sure that some of you guys/gals still don't understand why lots of skaters use the phrase 'skateboarding is not a crime'. This phrase was used since the early days when skateboarding was invented. Skateboarding is always pictured as a vandalism sports by some peoples.

Grind and slides are some of the fun tricks in skateboarding. So, if we want to do these tricks surely we need curbs, benches, handrails etc. And then, surely these stuffs will be damaged/broken or will leave some marks of the skateboards. So, that's why the public and authorities categorized it as a vandalism sport.

And the guards or cops will always have to chase us (my friends and I were always chased by guards) if we skate at certain place. But don't be afraid!!

Why don't they (the authorities) build us a proper place to skate? This is because they taught skateboarding is a seasonal sport. I want them to know something, skateboarding is not a seasonal sport!! I don't want to tell about other place, but at kt (istana maziah) kids have been skating there for about 5 years! Maybe you have never seen them. That's because you came at the wrong time.

Maybe there were no kids skating there at certain times because they were busy with their exams, studies, jobs and we don't go there to skate on bulan puase. These is because this sport makes you tired like hell. A lots of people think that this sport is easy. You're wrong for sure! You'll sweat the whole body, believe me. So, is skateboard a seasonal sport to you? If it's a seasonal sport maybe there will be no skaters there anymore! At the meantime, we skate on weekends only cause a lots of us will be sitting for spm this year.

So, now I hope you readers know why the skateboarders always use the phrase 'SKATEBOARDING IS NOT A CRIME'. Till then, ciowws!-boyfriday-

Conclusions' first words?
Assalamualaikum to all muslim readers and to you too nizam. (err...wut about to the non-muslims?-MoSh!)

History and line-ups? *Who gave the name?*
This band was formed at the end of June '97 and our current line-ups are Jati-vocals, Zack-guitar, Wann-bass and fitri on drums. Well, the name was actually my idea and I got it while I was thinking of something.

Why did you guys chose oi! to spread your message?
Because we love it and it mean something to us.

What's your lyrics about?
As usual, protest, stories about our Northern Riot spirit. (cool-MoSh!)

What are your opinions on local skaters?
I have friends that are skaters. And I don't really give a damn about it. As long as they are my friends, I'll support them.

What is the message behind your demo's cover?
No comment!

Your opinion on our u/g scene now days?
Well, I don't really know about other part u/g scene but in Penang, it is awesome and getting bigger and bigger.

terengganu scene report by MOSH!crew

Part 1

A'kum...

I am quite new in the scene, so if there's any mistake or wrong info please forgive me. There no u/g gigs around TRG. Maybe because lack of suitable venue to make a gigs and no organizers. But, sometimes the bands perform at the beach fest, karoekae contestor etc. the scene is boring compared to the early 90's. at that time a lots of powerful bands record their stuffs such as demos, rehs and even an album. Some of them are DPSA, MODAR, FADEDEFACE, STONED CROWS, and MALARIA. Some of the great zines are HEARTCORE and AEDES zine.

The bands that are still surviving and active in the scene are DEAD IDOLS(pop punk), PARALLAKS(oi!), TAHANNUS(metal), BRUTAL SCANE(grind core), THE SPEAK and maybe some that I don't know. Bands that were newly borned (that I know) are MALFUNCTION(h/c), SUBSTANCE(rap-core), and lots more bands that are still struggling to rise above and make some sense in this path. And another thing, the band that nazri(GSD zine) plays in, I think that you guys can go far if you make own songs and do same recordings. Oi! oi! oi!

A lots of zines were made the few months back. The zines are NARRATOR (kl now), DRSA(uum now), HELP(uia now), GO STRAIGHT DOWN(kt) and also MOSH!(kt). The zines that had released several issues are PANGCORE(jb now), REAL CHOICE(kt) ~~and also~~, MIGRAINE(kt). and also CHAOS PS from dungun.

Maybe a lots of you think that there are no skate scene before this at TRG. Atcually there are. The scenes are Kt, kemaman, Kerteh, and Dungun. There was a demo ~~recently~~ at Kemaman recently. And skaters from Kb, Kuantan, Kerteh and Kt also joined the skate demo.

That's all for the latest news from Kt. If anyone know that any band I didn't write, send a letter or mail me. I wanna know it all. All of u/g bands. No sell- out bands.

err...JUSTICE? by eyelash

there's something in my mind
something terrible is happening
justice?
why is it called justice?
justice is just shit!
our hopes were destroyed
our trust were betrayed
our thoughts were denied
the promises were broken
and they dragged us down
what the hell is going on?
don't you have sympathy on us?
we're not dogs
we're not shits
we're teenagers for the future
we don't want violence
we love the music
and together we destroy the disease
so give us a chance

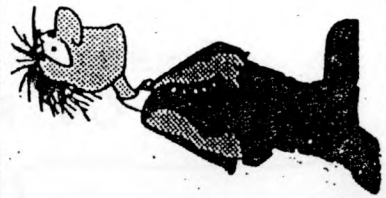
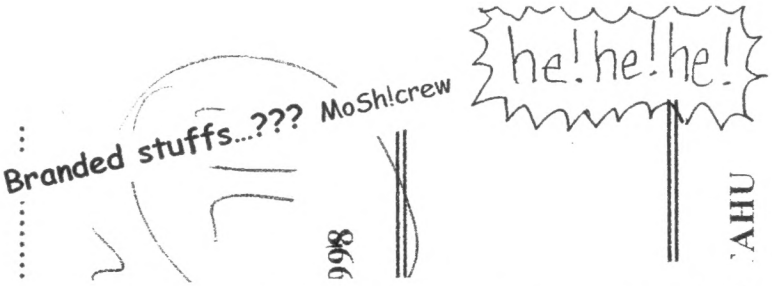
The 3RD world Country's Independent Underground Music Fanzine called Knickerbockers has released its 2ND issue. Interview, articles, poems, scene report, news, comics plus some other related stuff are available. Interested about it? Pay No More Than RM2 (by hand) + 50cent stamp (postpaid) to this fella: Kia, No 2A Block 9 Section 16, 40200 Shah Alam, Selangor Darul Ehsan, West Malaysia. No coins! No money order! No rip off! Write your address clearly and spread this flyer around! Get it??





A'kum...

Maybe this is a stale issue but still I want to write my opinion about it. Ok, not all UGers that wear branded stuffs sucks ok? Maybe it's not they who bought it (clothes, shoes etc.). Maybe their parents/family/girlfriends etc. bought it for them. So, don't label everyone that wears branded stuffs the same. Maybe they got it as a present or stuffs. So, they are not wasting their money and supporting the greedy sell-out companies. You don't expect them to throw or give these presents away, right? Think. Kalau die tak pakai/gune bende tuh terase ler hati member yg kasi tuh. Mungkin member die anak org kaye. But, honestly I think that branded +expensive stuffs sucks. Don't feel proud if you wear guess, pair of levis, and other shits. If you have so much money buy it all, I don't even care. But, I really think that it's just a waste of money. Yeah, maybe I wear those shits too. But I bought it when I was still stupid and don't know anything about attitude. Dulu la...nike la, bum la, ape laa, cam sial jer. Padehal mak bapak aku bukan org kaye. Duit pun cukup-cukup nak survive, pelajaran anak² dan sedikit keselesaan. Err, dulu aku mmg bodoh.

Ha...one more story that I hate to tell and dissatisfied with this one guy. This one guy from one of the most well-known distro label in our scene have wrote one letter to me coz he wanna reply my order. This is what he wrote *'I don't skate so I don't support it. Local skaters are just young yummies with expensive cloths.'* Err, I was really mad when I read it. Walaupun die kutuk sikit jer, mmg terase hati aku. Support who support you! Skaters...don't support this guy. Yeah, but he is only a part of that label. Pa'din said that the other guy from this label support/likes Sandwich (a local skate zine) so much. Tapi, kerana nila setitik, rosak susu sebelanga. Aku malas nak order ape-ape dari distro nih lagi. Aku terpakse rahsiakan name distro label tuh.

" Shah Alam Do-It-Yourself Scene " Report...

For Examiner's Use

Assalamualaikum kepada semua Muslims dan salam sejahtera kepada semua non-Muslims readers. Aku di sini menulis/menaip bagi pihak scene Shah Alam kat sini. Sebelum itu aku nak mintak maaf bebanyak jikalau report ini menyinggung perasaan korang. (You know who you are!) ok lah tanpa membuang masa lagi mari kita check it out bersama. Shah Alam ialah ibu negeri Selangor yang terletak di antara Petaling Jaya dan juga Klang. Sebuah kawasan yang tidak seberapa besar sangat. Scene u/g kat sini dah lama bertapak tapi tidaklah menyerlah sangat dan kalau tak silap aku ianya telah bertapak dari tahun 1989-hingga sekarang! Masa dulu-dulu nak cari stuff pun sikit punya susah, zine, band kat sini kurang, boleh dikira dengan jari lagi. Dahulunya scene kat sini bergelar "Shah Alam Underground Scene" dan dua tiga tahun kebelakangan ini ada timbul sedikit krisis dan akhirnya nama "S.A.U.S" telah bertukar menjadi "S.A.D.I.Y.S". tidak ada leader di antara kita dan kami semua co-operate di antara satu dengan yang lain and not to compete among us! Boleh dikatakan semua bebudak satu kepala.

Oklah, cerita pasal band-band kat sini pulak sekarang dah banyak bagaikan cendawan tumbuh selepas hujan. Band-band yang ada ialah The Dirty Dogs (dahulunya dari Kuala Lipis) yang berkonsepkan 'Raw Punk', Red Enforce Head band yang berkonsepkan 'Melodic HC', Fighting '94 iaitu band Oi!, 2 Faces band HC, Over Tuned (Punk Rock), Conflict Of Anger (HC), 8096 (tidak diketahui), Sweet Insect (Indie), Conflict Of Emotion (HC), Blindrage (band HC+sk8 punk), Vertebrate (Industrial), F.S.F (Punk Rock dari Kedah), Undermine Consumer (band projek yang berkonsepkan Grunge), The Spit (Punk Rock), The Uncure (tidak diketahui), Arayzia (klasik black metal), Your Generation (Punk Rock), Sphinx (Indie Punk Rock), Pink Houri (Indie Punk), Psycho War (Ska+Punk) dan banyak lagi yang mungkin aku tidak ketahui. Setiap band mempunyai style atau konsep music yang berbeza. Kat sini dah release 2 demo kompilasi dan ianya dibuat secara D.I.Y iaitu SAUS (Part I), band-band yang main ialah Over Tuned, Red Enforce Head, Sweet Bitter Pills, 2 Faces, Psychoduke, Fighting '94 dan juga Conflict Of Anger. Demo kompilasi yang satu lagi namanya ialah "Born In Shah Alam" dan band-band yang join-venture dalam demo tersebut ialah Vertebrate, The Spit, Undermine Consumer, Conflict Of Emotion, 8096 dan juga band Sweet Insect.

Sekarang kita cerita pasal zine pulak, untuk pengetahuan korang zine kat sini tak banyak, cuma ada 4-5 zine sahaja atau ada lebih lagi yang mungkin aku tak tahu. Dulu pun cuma ada satu zine sahaja yang wujud iaitu CORMS mag. (R.I.P). Oklah ini dia pulak senarai zine yang ada kat Shah Alam ni. Piss Of Mine zine, Lavazza zine (R.I.P kot?!), The Oppressed zine, Circa Melee zine, Chaos And Anarchy zine dan jugak zine low-profile ni iaitu zine aku sendiri.

Oklah, aku rasa itu sajalah yang boleh aku buat untuk korang semua. Aku berharap korang semua berpuas hati dengan apa yang telah aku sampaikan di sini dan jikalau tak puas hati jugak, cuba ikhtiar sendiri dan buat scene report sendiri, OK! Come out and support your local underground scene, do keep it strong and alive! Segala kesilapan dan juga kesalahan sama ada disengajakan atau pun tidak disengajakan amatlah dikesali. Harap korang betulkan aku! Aku mengucapkan bebanyak terima kasih kepada editor fanzine ini kerana memberi sedikit ruangan untuk aku menulis serba sedikit tentang scene report yang tak seberapa ini untuk korang readers semua. Chow...

EVIL IN BLUE SUIT -by pangspeck

They eat, they drink
Just like me
They shit, they sleep
Just like me
They discriminate, they bully
That's just not like me
Evil in blue uniform
Might look good to you
They say they're here to reform
But is that what they really do?
Together, me and you
Only us were the ones who realize it
To liberalize it
Evil in blue uniform

They think they're so mighty
Whatever looks bad to them
Is considered a deep shit
Skateboarders don't vandalize
Punks and skins don't socialize
But whenever bad things happen
Media tells lies
And we get the price
For just being ourselves
Evil in blue uniform
Is this what they call justice?
What ever it's gonna be
The ones who know, and care
Is only you and me!

The shitty incident -by PIRATE

A'kum and hello to you guys/gals...(thanks to editor cause give me *tumpang glamer*) I want to tell something about skateboarding when I was staying at Butterworth. I used to stay there for about 5 years. So, I got some skate friends there(smk Dato' Onn, e-zir and friends and sm kg Kastam, fitry, taufiq or bangla). There, we skate at Ampang Jajar(fuyoo, their skate park are great!). The skate park was sponsored by R/Muda. But in Terengganu, all the rails and fun-box that we built was stolen by the MPKT workers(suck!). *Diorang ingat tuh atok sedare diorang beli ke?!! Sial.*

I want to *kabi ronggeng* to you guys about one shit incident. *Anak haram dan seangkatan dgnnye.* I've snapped some photos while I was there. A lot of skaters with *gempak* tricks. But the camera sucks! All the pictures ~~came~~ didn't came out well. Only two of it came out clear. Mail me at sikaliouk@hotmail.com for comments.

ED- yeah, I guess that is the problem with the skateboarders here in KT. All our stuffs were taken away by MPKT or other authorities. Wonder why? The latest victim is the fun-box. Another RM50 flew away. F*#K YOU! So, if you guys/gals have any comments, encouragement or suggestions just drop us a line at MoSh! adress.

Pihak Penganjur tidak bertanggungjawab atas apa jua risiko akibat daripada penyertaan

Nanti korang akan tahu sendiri. Mungkin aku takde bukti sbb surat tuh telah aku kasi kat another skate zine iaitu SPOTLIGHT dari penang. Aku bukan nak memecah-belahkan scene atau bermusuhan. Kalau die nih (aku pon tatau name die) mintak maap kat local skaters sure kitorang maafkan. The words that you described didn't suit the local skaters but just the local skate poseurs. Skater and poseurs are totally different. Our pro and sponsored skaters do wear branded stuffs but they don't buy it!! They got sponsored. Just like the pros from other countries. Now, I hope anyone that labeled us as kids with expensive cloths understand. Skaters at my place goes to pasar malam every week to buy bundle clothes. Don't believe me?? Come and check it out yourself morons!! Maybe we buy skate brand clothes but just once a year for hari raya. Ok la, what a long opinion. Bye. THINK AND DECIDE!

Assalamualaikum and hi to all.
Kau nih dah ade sponsor ker?
Aku sekarang dah ade sponsor. Kalau deck aku patah ke aku dapat baru. Kalau kau nak tahu, mak aku yg sponsor. Tu lah, kalau hari hujan pun, aku skate gak. Member aku semua takde sponsor, setakat ni aku sorang jerlah.
Opinion ttg MoSh! #0 aku, patut ker aku sambung buat benda nih?
Zine skate yg kau buat ok, tapi kalau banyak lagi gambar, lagi bagus. Kalau ade aku kasi gambar, jangan lupa lak taruk gambar tu kat zine kau.
Skaters tempatan yg kau minat?
Skaters tempatan yg aku minat sorang jer, nama dia Sopat. Kalau skaters lain yg berlagak, mcm pandai tu semuanya suck!
Ko rase ade faedah ker main menatang nih?
Aku THINK main menatang nih bukan bagus sgt, tapi bagus gak ape! Kite main orang akan pandang. Lagi satu skate ni senang dapat kawan, macam aku dah berlambak dah kawan skaters.

Aku harap ko dapat taruk lagi bnyk gambar, lagi sedap org nak baca. Zine yg kau nak buat nanti hantar la dekat kedai skate kat KL ker. Baru lah gempak sikit budak skate pantai timur. Kau temuramah la Azrol. Kau hantar surat mcm aku. So, baru gempak. Lagi satu, kalau ade cadangan skate demo yg kau tahu, cerite lah lagi kat zine kau yg akan dtg tuh. Nanti seluruh Malaysia datang kat Terengganu. Ade lagi satu, kalau kau buat skate park buat la bagus² sikit. Nanti ramai la org dtg kat tempat kau. -Faizal, Kerteh skater.
InsyaAllah, ko kena la tolong aku jugak yek? Member² ko sekali. Hantar KL? Er aku tak kenal sgt la ngan diorang. Lagipun diorang terima ker zine buruk cam nih? Tapi aku akan suruh member aku distribute, kau jgn risau! Aku dah lama nak interview Azrol, die gempak la! Tapi aku tak tau alamat die. Kalo sesape ade, tolong contact aku, ok? Mmg aku buat zine nih utk skaters luar yg selame ini ingat sini takde skaters, bace dan tahu sini pun ade skaters, cume tak ramai cam tempat lain cam Kelang, Penang, JB, KL etc.

Ok, write to me at:- NIZAM, 911-A lorong kenangan, jalan sultan mahmud, 20400, kuala terengganu, terengganu.

Politicians -the BOLLOCKS

Ok this is a song from the well-known political punk acts from our country. I liked it so much that's why I printed it here.

Politicians show us lies While millions people die
Politicians on campaign trail They'll probably end of in jail
Organizations telling shits Sacrifice the innocent
United nation United chaos
I grief for the lives that are lost
Politicians quite bad, politicians quite mad, politicians quite sad,
Politicians you f@#king crap!
Politicians have peace talks But peace plans never walk
Blood spilled in the holy land is the blood that's on their hands
Politicians are criminals but I think they're animals
I think they should be hung and their place take by the young
Politicians f*#k your ass Politicians dropped the bombs
Politicians they will fall Politicians kill them all!!!!!!!!
