We again claim the action of attacking a police post, on December 17, 2024 in the area of Tasikmalaya, West Java.

We are a small revolutionary cell formed from the consciousness of resistance, a fusion of collectives and free individuals! There will be more attacks to destroy the state and its instruments!

This communiqué is addressed to Nikos Romanos, Alfredo Cospito and all imprisoned FAI/IRF members around the world. You are not alone!

Because no one deserves to be imprisoned!

Until all are free!

Fire to the prison!!!
